

Comeau Aerospace Inc.
Ultimate Flying Machine - Design Engineering Projects
CAI-350 Freedom

An exciting line of amphibious aircraft for the adventurous flyer!

- bi-plane design with amphibious hull
- State of the art for engineered strength, light weight & aero design
- Excellent low and high speed flight characteristics
- The ultimate in safety, flight control, performance and utility features
- Reliable, rugged, spacious and comfortable
- Electric, hydraulic & manual controls and retractable landing gear
- A very smooth quiet ride with little turbulent effects
- Enhanced performance, economy, value and style
- Versatile, fast climb for rough water and mountainous terrain
- High lift aerodynamic design enables greater useful load with performance to spare.
- In-flight adj. multi-blade “pusher” co-axial composite super-props

CAI 350 Freedom

- Engine: 1-NTPI 1,000 V-12, super-charger
- Range: 750 miles
- Climb rate:
- Empty weight: 4,440 lbs
- useful load: 2,760 lbs
- gross weight: 7,500 lbs
- Max speed: 160 kts
- Length: 38', Wingspan: 48'
- 6 person + gear
- Service Ceiling 20,000' pressurized cabin

Jetstream Vision

- *Pricetag:*
- *Market Vision:* initial 10+ aircraft; 25+ aircraft within 5 years
- *Initial Production Vision:* 5 aircraft to start program
- *Job Creation Vision:* 200 long term jobs, high value added
- *Investment & Acquisition Vision:* common shares and convertible bonds, aircraft specific, fractional ownership+
- *Pilot Vision:* Let the real air miles adventure begin eh!

CAI-350 Freedom for free people

The ultimate flying machine adventure!
