

Comeau Aerospace Inc. - Advanced Projects
The Ultimate Flying Machine – Design Engineering Projects

CAI-809 Aerial Platform :

- based on the CAI-808 vehicle for variable scale work and delivery logistics platforms;
- craft in craft design elements 809/x808;
- custom module mission configured;
- container and payload options for strategic, operational and tactical profiles;
- piloted and pilotless mission tasking and tactical support;
- heavy lift, slow and high speed high maneuverability;
- command and control for rapid deployment options;
- all weather and terrain - land, marine, city, forested, ice, snow, mountain and altitude;
- special effects and weather technology tools;
- more fun, more valour, more victory;
- enable, augment and amplify mission capabilities and resources;
- commercial delivery logistics options;

Obviously, you will need your "Working at heights" certification for this one...hahahaha!

The CAI-809 Aerial Platform

The new dimension in work logistics is a lot more than most would ever imagine...
